Lagos Metropolitan University

Executive Program in Technology Management - EPTM 2027

Program	Executive Program in Technology Management
Cohort	EPTM 2027
Application deadline	2026-12-01
Program duration	12 months part-time (Mar 2027 - Feb 2028)
Format	Friday evening + Saturday all-day, monthly intensive weekends
Location	Lagos Metropolitan University Business School, Victoria Island
Tuition	USD 18,000 / NGN 27,000,000 (excluding accommodation, travel)

Program overview

The Executive Program in Technology Management (EPTM) is designed for mid-to-senior career technology professionals who are transitioning into broader leadership roles. The 12-month part-time program combines core management modules (strategy, finance, leadership, organisational behaviour) with technology-specific modules (technology strategy, digital transformation, emerging-technology economics, regulatory environments for digital infrastructure). The cohort is capped at 40 participants and admits in March each year.

Curriculum

#	Module	Hours	Faculty lead
1	Strategy for Technology Companies	32	Prof. Adekunle Bankole
2	Financial Management for Technology Leaders	32	Prof. Mary Adejare
3	Leadership and Organisational Behaviour	40	Prof. Tunde Lawal
4	Technology Strategy	32	Prof. Bisi Olanrewaju
5	Digital Transformation: Case Studies	32	Dr. Funke Otufodunrin
6	Emerging Technologies: Economics and Strategy	32	Dr. Aliyu Mohammed
7	Regulatory Environments for Digital Infrastructure	24	Prof. Bola Adeyemi (NCC fellow)
8	Negotiation and Stakeholder Management	24	Prof. Lawal Adesoji
9	Capstone Project: Strategy for the Candidate's Organisation	60 (independent)	Cohort sponsor

Alumni profile

EPTM alumni include Heads of Network Planning at three of the four major Nigerian telcos, the current Director of the Nigerian Communications Commission Spectrum Management Department (EPTM 2018), CIOs at two of the Tier-1 Nigerian banks, and senior engineering leaders at MainOne, Galaxy Backbone, and the Nigerian Communications Satellite. The cohort builds lasting professional networks across the Nigerian technology ecosystem.

Application process

Applications open from 1 September each year and close on 1 December. Eligibility: minimum 8 years post-graduate work experience, with at least 3 years in a leadership or senior technical role. Application materials: (a) CV, (b) personal statement (1500 words), (c) two professional referees, (d) employer sponsorship letter if applicable, (e) GMAT or GRE waiver available for candidates with 10+ years experience. Interview by panel in January. Cohort announcement late January. Tuition payable in three instalments over the program duration.

Sheila's notes (personal)

Notes from the open evening at the Lagos Met campus on Sep 12, 2026. The 2026 cohort included two senior engineers from MTN (Lagos-based) and one from Globacom; the network value of the cohort seems real. Faculty are a mix of practitioners and academics, weighted toward practitioners. Capstone project would be a natural vehicle for the broader Nasarawa-and-CBD deployment narrative; would also dovetail with the LinkedIn article series. Concern: 12 months of monthly Friday-Saturday weekends in Lagos is a significant family commitment; need to discuss with Adeyemi before applying.
