Last modified at time of export	2026-09-25T11:00:00+01:00
Export type	Static PDF snapshot, for offline reference

Filing window

Filing window: Mon Oct 5, 16:00 WAT (post-hearing). Per technical review v3.

Rationale for the 16:00 post-hearing window: Filing the Form 7B documentation pack after the 10:00-13:00 hearing concludes allows us to fold any clarifications requested by the Commissioner during the hearing into the submission before lodgement. The window closes at 16:00 to give Fatima Musa time to upload to the NCC portal before close of business. This is the rhythm we used for the 2025-Q4 9mobile 5G pilot and the 2024-Q2 MTN spectrum reallocation cycles.
--

Filing pack contents

The Form NCC-7B Spectrum Application bundle for the Abuja CBD 5G Densification Pilot consists of the following documents, to be submitted as a single PDF stitched in this order:

#	Document	Owner	Status at v3
1	Form NCC-7B template, completed	Fatima Musa	Section A complete; B-E pending hearing
2	Technical Justification v3 (pg_5g_tech_position_v3)	Sheila Stokes	Locked Sep 22, 2026

#	Document	Owner	Status at v3
3	Coverage gap analysis (5g_cbd_coverage_gap_analysis.pdf)	Sheila Stokes + Emeka Adeniyi	Sep 18 draft
4	EMF compliance methodology	Sheila Stokes	Sep 25 final
5	Spectrum analysis exhibits	Fatima Musa	Sep 28 target
6	Local content commitment attestation	Sheila Stokes	Pending Sep 30
7	Vendor equipment certification table	Amaka Obi	Living document, snapshot at hearing time
8	Authorised Signatory cover letter	Sheila Stokes (signature) + B. Olatunji (counter-sign)	To be signed post-hearing

Roles and responsibilities

The filing is a joint effort between Network Planning (technical content), Regulatory Affairs (form completion and submission logistics), and Engineering Leadership (sign-off). Each role's specific responsibilities are set out below.

Sheila Stokes, Senior Network Planning Engineer

Owns the technical position (pg_5g_tech_position_v3 v3). Presents at the hearing. Signs the cover letter as Authorised Signatory for TelcoNG NetPlan in the spectrum application track. Provides the coverage gap analysis, EMF compliance methodology, and local content commitment. Post-hearing, reviews any clarifications the Commissioner requests and approves their incorporation into the final submission.

Fatima Musa, Regulatory Liaison

Owns Form NCC-7B itself. Compiles the spectrum analysis exhibits. Manages submission logistics: upload to the NCC portal, payment of the prescribed application fee, receipt confirmation. Acts as primary point of contact with the Commission's case officer for clarification requests. Maintains the audit trail of every version of the submission pack.

Eng. Babatunde Olatunji, Director of Network Operations

Counter-signs the cover letter. Provides the executive sponsor sign-off required by NCC for spectrum applications above 50 MHz block size. Available on-call during the hearing window (10:00-13:00) for any escalation. Does not attend the hearing in person unless the agenda escalates to commercial terms.

Amaka Obi, PMO Coordinator

Maintains the vendor equipment certification table (Tachyon-supplied equipment, NCC type-approval status, certificate numbers, expiry dates). Coordinates with vendor Account Engineer Ola Adeyemo to ensure certification evidence is current as of submission time. Provides Sheila with a snapshot of the certification table at hearing time for use in agenda item 5 (Vendor Equipment Certification Status).

Pre-hearing logistics (Mon Oct 5, morning)

The Monday morning of the hearing follows a tight rhythm. The Network Planning team holds a 09:00 team standup at the office (recurring weekly). Sheila travels to NCC HQ at Mborah Crescent for the 10:00 hearing, leaving the office at 09:20 with Fatima Musa. The hearing runs 10:00-13:00; Commissioner Aminu Garba presides; agenda has five items (see hearing Q&A brief).

In-hearing checklist

Time	Event	Owner	Outputs
09:00-09:20	Team standup at office	Sheila + team	Sprint status; departure confirmed
09:20-09:50	Drive Wuse II → NCC HQ Mborah	Sheila + Fatima	Arrival before 10:00
09:50-10:00	Sign in at NCC reception; receive visitor badges	Fatima	Visitor log entry; badges
10:00-10:30	Agenda item 1, Spectrum allocation rationale	Sheila presents	Slides 1-6; verbal Q&A
10:30-11:00	Agenda item 2, Site density justification	Sheila presents	Slides 7-12; coverage map exhibit
11:00-11:30	Agenda item 3, EMF compliance attestation	Sheila presents	EMF methodology summary
11:30-12:00	Agenda item 4, Local content commitment	Sheila presents	% breakdown by category
12:00-12:30	Agenda item 5, Vendor equipment certification	Sheila presents	Certification table snapshot
12:30-13:00	Commissioner Q&A; clarifications requested	Commissioner Garba	Written list of clarifications
13:00-15:00	Lunch + draft response to clarifications	Sheila + Fatima	Draft addendum
15:00-16:00	Final review; stitch addendum into submission pack	Fatima	Final PDF
16:00	Submit to NCC portal, Filing window opens	Fatima	Receipt confirmation

Post-hearing filing (Mon Oct 5, 16:00)

The filing window opens at 16:00 WAT on Mon Oct 5, immediately after the hearing concludes and any Commissioner-requested clarifications have been folded into the submission pack. The submission consists of the eight-document bundle listed above, stitched as a single PDF, uploaded to the NCC portal under case reference NCC-SA-2026-0419 (Abuja CBD 5G Pilot). The prescribed application fee of NGN 1,200,000 is paid via the NCC's online payment gateway at the time of submission; receipt confirmation arrives within 30 minutes typically. The Commission then has 60 calendar days to issue a determination per Section 121(3) of the Communications Act.

If clarifications request a major rework (more than a single addendum page), Fatima escalates to Sheila and Babatunde for a decision on whether to (a) file as-is and address remaining items in a supplementary submission within 14 days, or (b) defer filing to Tue Oct 6 morning. Decision rights rest with Sheila as Authorised Signatory.

Version history

Version	Date	Author	Summary of changes
v1	2026-08-30T14:00:00+01:00	B. Olatunji	Initial draft, high-level plan only, archived
v2	2026-09-08T10:00:00+01:00	B. Olatunji	Added pack contents, hearing checklist, version table
v3	2026-09-25T11:00:00+01:00	B. Olatunji	Locked filing window at 16:00 post-hearing. Aligned with technical review v3. Current version as of this export.

END OF v3 BASELINE EXPORT
