Subject: Community Objection to Proposed Cell Site at NSW-PHASE1-S08 (Akwanga LGA, Andaha Ward)

Dear Mrs. Ndukwe,

We write on behalf of the Andaha Women's Forum, an autonomous community organisation registered with the Akwanga Local Government Area Community Affairs Office. Our membership comprises 247 women resident in Andaha Ward, representing 58% of adult women in the ward. We received written notice from your field acquisition team on Monday September 21, 2026, regarding the proposed construction of a cell site at the location designated NSW-PHASE1-S08, located on land adjacent to the Andaha Maternity Centre and the Andaha Community Primary School.

We wish to register the Forum's formal objection to the proposal as it presently stands. While we are not opposed in principle to the expansion of mobile telecommunications coverage in Andaha, we have specific concerns about the proximity of the proposed site to community infrastructure serving women and children. We respectfully ask that TelcoNG NetPlan address these concerns before site preparation begins.

We have consulted informally with the Andaha District Head, Alhaji Ibrahim Kassim, who has indicated that the matter falls within the Community Forum's remit but that he is available to lend his weight if the Forum's concerns are not addressed in good faith. We hope and expect that such escalation will not be necessary.

Our specific concerns are as follows:

1. Radiation safety for women and children. The proposed site is approximately 90 metres from the Andaha Maternity Centre and 140 metres from the Andaha Community Primary School. Several members of the Forum have raised concerns based on community-level conversations about radio

emissions. We request that TelcoNG NetPlan provide a written technical attestation, in language accessible to non-engineers, confirming that the installation will not exceed the electromagnetic-field exposure thresholds set by the Nigerian Communications Commission for infrastructure proximate to schools and healthcare facilities.

2. Traditional leader consent. The Andaha District Head, Alhaji Ibrahim Kassim, was not consulted by your field team during the September 21 site visit. We respectfully request that TelcoNG NetPlan formally write to the District Head requesting an audience, and that the audience be granted before site preparation begins.

3. Community benefit arrangement. Several members of the Forum have asked whether TelcoNG NetPlan would consider contributing to the maintenance of the Maternity Centre as part of the site lease arrangement. We are not making this a precondition of consent, but we believe it would be a constructive gesture and we ask TelcoNG NetPlan to consider it.

We respectfully request a community consultation meeting at the Andaha town hall on the week of October 13, 2026 (specific date to be confirmed) to discuss these matters in full. We invite Mrs. Ndukwe and any colleagues at TelcoNG NetPlan deemed relevant to attend. We will arrange refreshments and the customary courtesies for our guests.

The Forum's request is simple: come and sit with us before any work begins. The mothers and the matrons of Andaha will not allow the site to proceed without having heard the technical assurance in our own language. We trust that TelcoNG NetPlan will agree to the meeting in the spirit it is offered.

Yours faithfully,

Mrs. Patience Yakubu

Convener, Andaha Women's Forum

For and on behalf of the Andaha Women's Forum

cc: Hon. Chairman, Akwanga LGA; District Head, Andaha Ward; Federal Ministry of Communications and Digital Economy
