

CBD INTERFERENCE ANALYSIS SUMMARY - DRAFT

Document Status: Draft Version

Draft Date: 30 August 2026

This draft interference-analysis summary was prepared during an earlier review cycle. It is provided for reference only and was later superseded by a revised hearing version.

Analysis Area	Result	Status
Adjacent Channel Review	Preliminary Review	Draft
Co-Channel Assessment	12.6 dB C/I margin	Draft
Urban Density Check	Under Review	Draft
Mitigation Validation	Pending	Draft

The technical figure shown above is from an earlier draft and should not be cited where a revised hearing version is available.

Draft Notes

Preliminary engineering review completed. Findings subject to validation, revision, and regulatory review before hearing submission.
